

## BA in Earth and Environmental Studies: List of Approved Upper Division Electives

### Requirements:

- Students must take at least 5 upper-division courses with topics related to the environment (15 credit hours minimum).
- At least 2 of the EES elective courses (6 credits) must be 400-level; all 5 courses must be upper division (300-499 level).
- If a student finds a course that they would like to take that is not on this list, they should consult with their SESE advisor for approval to apply the course as an EES major elective **prior to** registering for the course.

### Special Notes:

- This is a resource document meant to help with planning only. Changes to courses and prerequisites are always occurring. Check the [ASU Course Catalog](#) for course offerings and prerequisite updates.
- Not all listed courses are offered at the Tempe Campus. Some may be taught exclusively at other ASU campuses.
- Make sure to check the legend at the bottom of this document and **When Offered** column. Not all courses are offered regularly in the given semesters and may be offered in alternating years only.

### About the Elective Tracks:

- Students are encouraged to choose a focused track but they also have the option to choose any combination of courses across multiple tracks. Regardless of the chosen track, at least two electives (6 credits) must be 400-level.
- Each of the focused tracks has overlap with a related certificate program that students can choose to pursue along with the chosen track. Students should discuss this option and how to add a certificate with their academic advisor.

### Earth and Environmental Studies General Elective Track

The Earth and Environmental Studies General Elective Track includes all of the courses in the following tracks:

- 1) Climate/Environmental Change;
- 2) Earth Resources;
- 3) Environmental Education;
- 4) Environmental Management;
- 5) Environmental Policy; and
- 6) Sustainability

While students are encouraged to pick a focused track, students may opt to select courses across multiple tracks. Of the five major elective courses required, at least two of the courses (6 credits) must be 400-level.

<b>Climate/Environmental Change Track (this track has some overlap with the <a href="#">Water Resources certificate</a>)</b>				
<b>Class number and title</b>	<b>Credit Hours</b>	<b>When Offered</b>	<b>Pre-requisites</b>	<b>GS</b>
ABS 350 Applied Statistics	3	F/S/SS	One course meeting General Studies MA requirement with C or better <i>(Offered at Polytechnic campus only)</i>	CS
ASB 326 Human Impacts on Ancient Environments	3	F or S**	Minimum 45 hours	SB + H
ASB 375 Humans and the Environment: What's the Connection?	3	F or S**	ENG 101, 105 or 107 w/ C or better; min 45 hours; Credit is allowed for only ASB 375 or SOS	(L or SB) + G
